

10 WAYS TO BOOST YOUR CREATIVITY

FEELING UNINSPIRED? TRY THESE 10 WAYS TO GET MORE CREATIVE!

1 SURROUND YOURSELF WITH INSPIRATIONAL PEERS

By having positive and creative peers, you can get feedback from others whose ideas you value.

You can easily get new ideas by bouncing ideas off one another.

**If you don't have people in person for this, look for communities online like forums.*

2 LOOK FOR OUTSIDE SOURCES FOR INSPIRATION

Read books, watch movies, and go online to get ideas that inspire creativity within you.

3 LISTEN TO YOUR PUMP IT UP PLAYLIST

Play music that gets you in the right state of mind to keep your creative juices flowing.

4 SET A REGULAR SCHEDULE FOR YOUR CREATIVE TIME

Recognize what time in the day you are most creatively energized and set your schedule to that time.

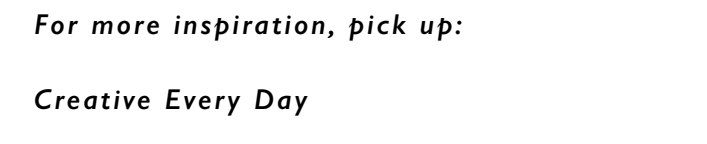

During your creative time, do not do anything else. Creative time is only for creating.

Don't wait for inspiration to magically appear. Just do it!

5 SHOOT FOR THE MOON: SET HIGH GOALS

Set high goals for yourself to achieve.

Even if you don't reach your moon shot, you will achieve a much higher level than you originally aimed for.

Treat your projects as fun experiments.

Let loose and just go with the flow.

Don't get too attached to your projects:

If something is not working out, it's ok to change or scrap it!
