Eric Kim's Workflow For Lightroom Classic CC

LEARN HOW TO USE LIGHTROOM LIKE A PRO
Follow along the steps below to learn how!

BEFORE USING LIGHTROOM

Before starting, be sure to have all the required materials that I list to follow along the step by step instructions:

Software: Adobe Lightroom Classic CC
Preset: Eric Kim 2018 Preset
Photos: Your photos in an SD card
Photo Recommendation: Use photos that you've taken recently, or photos that you've never edited before.

Once you have all the items listed above, you're ready to start using Lightroom Classic CC easily and efficiently like a pro!

IMPORT PHOTOS WITH A PRESET

Follow the steps listed below to learn how to import photos with a preset, in a event you're using Adobe Lightroom Classic CC.

1 Insert your SD card

2 Open **Lightroom Classic CC.**

3 Click **IMPORT.**

4 Under **SOURCE,**
Click your SD card in the

5 Under **APPLY DURING IMPORT,**
for **DEVELOP SETTINGS,**
Click **USER PRESETS.**
Click **One of the Eric Kim Presets.**

6 Click **IMPORT.**
