JUST SHARE IT.

SENECA

You don't need the permission of anyone else.

OPEN SOURCE IT

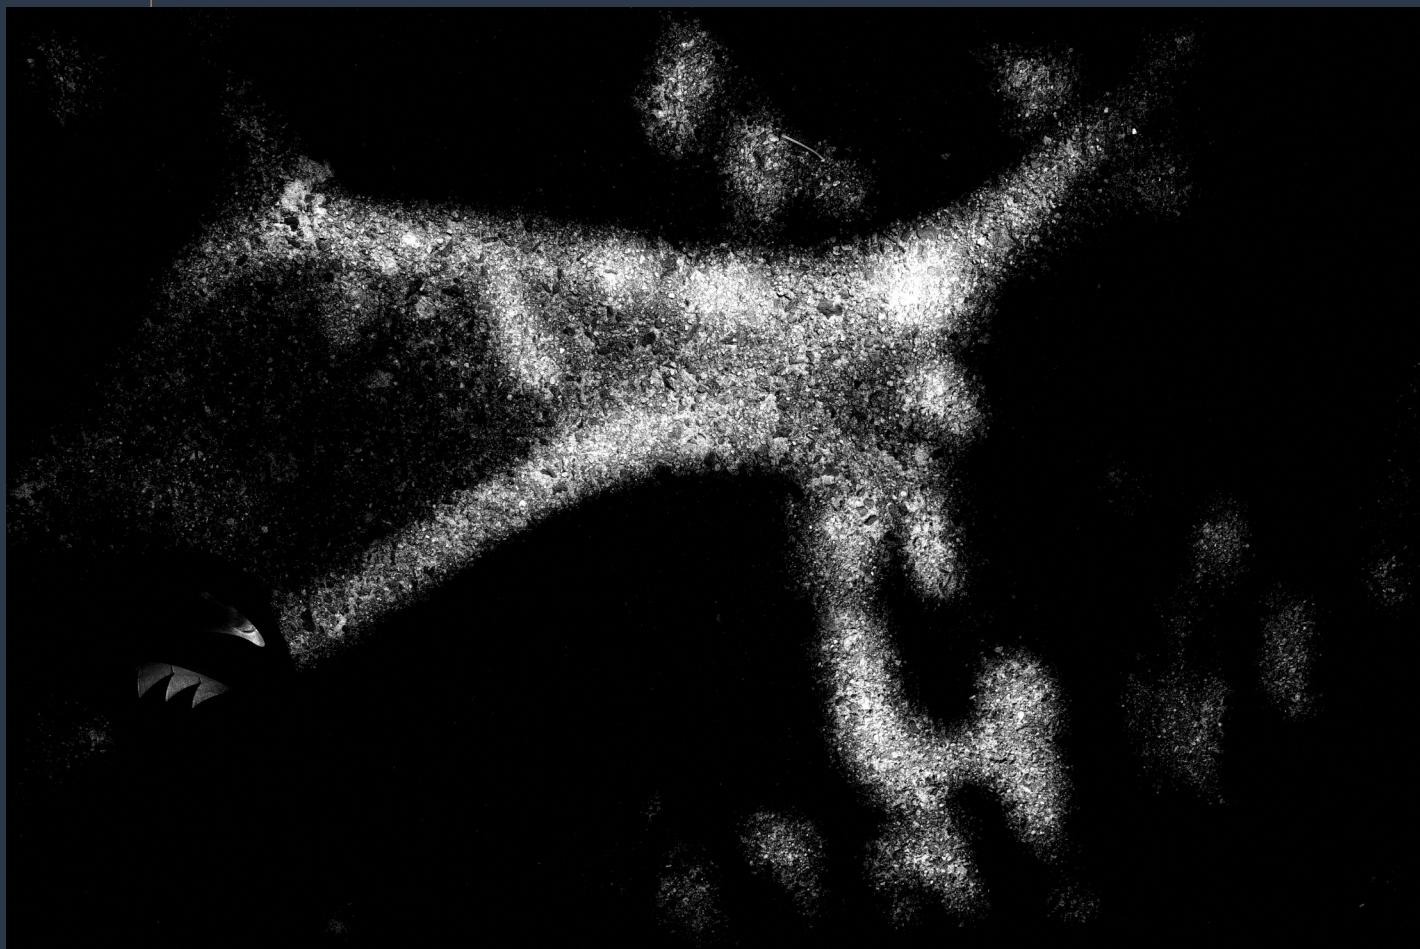

Don't worry about others 'stealing' your work. The goal is to simply propagate your photos as widely as possible. Recognition, impact, and spread as more important than money and 'legitimacy'.

New methods of publishing

EVERY MOMENT

IS A CREATIVE ONE.

NO BOUNDARIES

No boundaries and limits. All photos are good photos.

What to shoot

1. *Trees*
2. *Clouds*
3. *Your hand*
4. *Selfies*
5. *Reflections*
6. *Shafts of light*
7. *Your loved ones*
8. *People on the street*
9. *Geometric shapes and forms*
10. *Triangles, circles, diagonal lines.*

Things to think about.

- 1 Photography is your creative art. No boundaries. Don't be trapped by any genres or definitions in photography. You are the uber-photographer, and you can shoot it all.
- 2 Better to make a 'bad' photo than no photo.
- 3 Shoot first, figure out the meaning and purpose later.
- 4 Every photo you shoot is a photo-stream and a photo-becoming.
